# BreachHammer

Technology Group LLC

FEDERAL CYBERSECURITY CAPABILITY STATEMENT

BreachHammer is a veteran-owned cybersecurity business based in Palm Harbor, Florida. We help organizations identify security weaknesses, strengthen endpoint and cloud defenses, improve access controls, and prepare for security incidents.

## CORE CAPABILITIES

**Vulnerability management:** authorized assessments, risk prioritization, remediation guidance, and verification of corrective actions.

**Security engineering and Zero Trust:** endpoint hardening, application control, least privilege, identity security, and layered defenses.

**Cloud and email security:** configuration reviews, account protection, phishing defenses, and access-control improvements.

**Detection and incident readiness:** monitoring support, detection and response coordination, and incident response planning.

**Security program support:** policies, gap assessments, evidence organization, and alignment with applicable security frameworks.

## FEDERAL TEAMING FOCUS

Scoped vulnerability management, security hardening, and readiness support for federal prime contractors. Engagements define authorized systems, approved tools, deliverables, support hours, data handling, and escalation responsibilities.
